

# Pallet Sales & Collections

Tracey Timber Recycling accepts many thousands of pallets which are graded according to quality and size. Although the pallets are sold second hand many of them have only been used on one trip and in some cases are not dissimilar in appearance to new pallets.

To receive further information or to enquire about price and availability contact us today.

We operate our own fleet of vehicles and because of this we can offer competitively priced wood and waste pallet collections.

- Reconditioned Pallet Sales
- Pallet & Wood Waste Collections
